Absolutely brilliant! It is very entertaining. A 2D crazy golf course with Worms classic physic game. Kill bystanders with a golf ball to the end, careful to sheep they don't eat it or smack them 3 times to explode the ball away. It is a lot fun.. Nice little game made by one guy. A rabbit-ing froggie game with a Kirby and Megaman flavour to it. Try eating anything you catch with your tongue.

Recommend using a controller.. Puzzle game about Undead - Nice pictures, nice idea with the menu action, nice music... and nice pictures (didn't I say it already?). Though I wouldn't let kids play it as some pics are really graphic.

If you need a break from killing Nazi zombies or Tanks or Necromorphs or demons or any pet from Horzine or people with headcrabs on the head or... well, you get the picture: that game is perfect (along with the other Pixel Puzzles).

It's a jigsaw game. The more you advance in the game, more puzzles with a high number of pieces will be available. Here, you have an action mode you can play: zombies are assaulting your position, kill them, place traps, thanks to the money you'll find behind some jigsaw pieces. Else, the main core is the same: puzzles pieces floating in the water, with different forms.

Anyway, you can play in the menu: it's a survival minigame: kill incoming zombies!

Pixel Puzzles UndeadZ is probably the more elaborated game in the series, due to the action added.. this should be part of the game and not dlc. Been waiting for this game for 6 years! Its everything I could hope it could be.. This software was what eventually kick started my career in software development, Ruby is such a versatile language.. Very Promising Game, I believe the company will be Financially Quantitative in the future. Seed Generators are everywhere and these guys have been living it.. The introduction of the Kill-a-rilla make this game especially relevant for our time. ♥♥♥♥♥♥♥♥♥♥out for Harambe.. Well written, well made, and beaucoup disturbing. It's short though, even if you go through it for the achievements. 90 minutes tops. 75V100

The good

Excellent writing

Great use of incidental music and effects

Refreshingly disturbing

Lots of save slots to load a game and try different options

You probably won't look at a doll or a lily-of-the-valley the same way again

Achievements and cards

The good

Very short

Minimal replay value

Subject material may irk or offend susceptible people (it didn't bother me, but we do live in the era of the readily offended snowflake)

. Not bad. Point & Click game with not many novelties. Several good things like the overall look, the music and the voice acting. The story is interesting and easy to follow. Took me about 10 hours to finish it.

Found no bugs or had any crashes. Runs fine on Win 7.

Overall, is entertaining. The puzzles are mostly easy ones and the few mini-games are no-brainers. It's not a big deal, but later in the game some things, like the dialog choices and the constant coming and going from one scene to the other (at times just to do a little thing connected to the main quest) can become somewhat tiresome. Nevertheless, is a nice game if you just want something rather easy to play and something that is pleasant to look at.

If you like Old-School F.P.S games, Destructive weapons, Chessy One-Liners, Plenty of Easter eggs, And tons of Blood and Gore then this games is for you. This game pays tribute to old action horror movies. Plenty of weapons And tons of ways to kill enemies and gib'em you can even kill around their heads! Controls are really old but with some fine tuning you can make it work. This game is really fun. BUT BE WARNED : THIS GAME IS NOT FOR THE FAINT OF HEART ! It's hard Almost dark souls hard. So if your up for it play it OR play the remastered version!. sweet co-op time killer!! add me (JDOUGH570). A short, pleasant and casual game with personality. A compact experience that's worth supporting the developer for if you enjoyed the first free game.

Very similar to the original with a few improvements:

- New chiptunes!
- More abilities [gameplay variety]
- More Challenging [maybe?]

I really like how something as simple as auto firing and not being able to strafe meanwhile damage heals you creates a disconnect between getting near enemies and running from them. You can get up close with the multi-spread to do damage or sneak in more healing while also risking your current health. If you're low, you can try to run but, eventually, you're going to need to run back in to heal.

Also you can date a door, 10/7 Masterpiece :]. needs more maps and powerups...

good enough tho. Good lord this game is way much more fun than I ever could have imagined. I absolutely love this developers previous game (Unloved) but this one just didn't look as good judging by the gameplay and screenshots but MAN was I wrong! This game is so addictive that I'm pretty sure the 8 hours I've played so far were completely in a row with no breaks. The action is very fast paced, the shooting is in third person, there are several RPG elements in place, and it's just super fun to play. And that's what's really most important. If you like old school shooters like Doom or even the new Doom, Wolfenstein, etc. I think you will find a TON to love with this title. There is SO much replayability that I just can't stop playing it. My new addiction has a name. And it's name is Dimension Drifter.

I've started a Youtube series for tihs game if you want to see what some of the gameplay looks like. I recorded like 15 episodes or something ridiculous so this series will be slowly updated over time:

https://www.youtube.com/watch?v=FD0lYQjhMy4&list=PL08FwntTpxPABIZ6B_iUnOYMXZgt3ajxM. I just love it. Its super cool. I remember when I played the free version and it was just amazing! Now I bought this Game and I love it more then before!
